

Vision, Comfort, Protection.

American Standard Window Film offers the technology of the future, for today's energy-conscious consumer.

**Safety™ Reflection 20
8 mil**

safe•ty | sāf'tē | a preventive measure; protection from harm; kept safe

The Safety series acts as an invisible shield protecting against UV rays and dangerous shards. In the event of glass breakage, safety films contain potentially hazardous glass fragments reducing potential damage during seismic, windstorm, human or projectile impact and blast events.

Benefits

- Mitigates damage due to failed glass
- Contains potentially dangerous shards in the event of glass breakage
- Helps mitigate forced entry
- Superior heat reduction to increase comfort and correct temperature imbalances
- Provides energy savings through lower air conditioning costs
- Superior glare reduction reduces eyestrain
- Blocks 99% of ultraviolet rays to help reduce fading
- Durable, scratch resistant coating
- Manufacturer's warranty

Window Film Performance Data

% Total Solar	
Reflectance	60%
Absorptance	30%
Transmittance	10%
% Visible Light	
Transmittance	14%
Reflectance: Interior	64%
Reflectance: Exterior	64%
% Ultraviolet Rejection	99%
% Glare Reduction	84%
Shading Coefficient	0.21
Solar Heat Gain Coefficient	0.18
% Total Solar Energy Rejection	82%
